They can scurry around your home at a **SPEED OF 3MPH**

ROACHES

Cockroaches are **NOT THE MOST SANITARY**. They feed on garbage and breed in sewage

A cockroach can live up to a week **WITHOUT ITS HEAD**

Cockroaches can hold their breath for about **FORTY MINUTES**

Cockroaches produce a protein that can prompt an **ALLERGIC REACTION** in many people

Cockroaches have **HARD EXOSKELETONS** that protect them. They can withstand forces up to **900 TIMES** their bodyweight

Cockroaches can **BREED** very quickly, resulting in large infestations

Only female mosquitoes **BITE HUMANS**

mosquitoes lay approximately **100 EGGS AT A TIME**

The entire Aedes mosquito **LIFE CYCLE** from an egg to an adult only takes **7-10 DAYS**

A FULL MOON can increase mosquito activity by 500 percent.

Love-struck mosquitoes harmonize their **BUZZING**

Some types of mosquitoes can **BREED** in less than a teaspoon of water

MOSQUITO

Mosquitoes are attracted to a combination of **BODY HEAT, ODOR, THE CARBON DIOXIDE** that humans emit when they breathe, and lactic acid, an element found in sweat

RODENTS

The **NORWAY RAT**
did not originate
in Norway

Female bed bugs lay
ONE TO SEVEN EGGS
per day

Bed Bugs can survive
a long time without food.
How long? Try **FIVE MONTHS**

Adult bed bugs are about
the **SIZE, SHAPE AND COLOR**
of an apple seed

Not only can you get disgusting
Bed Bug bites, but you could
have an allergic reaction
to them. It can cause
ASTHMA ATTACKS and
ANAPHYLAXIS

Their **FEEDING PATTERNS** are
nocturnal, they'll create a
line of bites from your
exposed skin on up

Bed Bugs **EVOLVED** tens of
thousands of years ago to
feed on human flesh

Bed Bugs **FEED ON YOUR BLOOD**
to survive, using an anesthetic
in their saliva while biting so
you don't notice it

Rat's super strong teeth
NEVER STOP GROWING! They
have to keep nibbling to
wear them down

A group of rats is called a
'MISCHIEF'

Rats are mainly **NOCTURNAL**
and live underground

Females are fertile
approximately every three
weeks, and during this
time they have been
known to mate
up to **500 TIMES**

Rats are well-known
CARRIERS OF DISEASES.
They have been implicated in the
spread of some 40 diseases,
including the bubonic plague,
typhus, and leptospirosis

Per litter size typically
ranges from **6 TO 20 BABIES**

BED BUGS

When soldier termites **SENSE A THREAT**, they tap or bang their heads against the colony's tunnel walls

Termites are hygienic. Termite colonies spend a great deal of time **GROOMING ONE ANOTHER** in order to prevent disease

They never sleep. Termites build their colonies **24 HOURS A DAY, EVERYDAY**

Termite damage is expensive. Every year, termites inflict more than 5 billion dollars worth of **PROPERTY DAMAGE**

The largest termite colony ever recorded contained over **THREE MILLION** termites

Termites are **GOOD FOR YOU TO EAT!** Termites are rich in iron, calcium, protein, fatty and amino acids, making them a highly nutritious food

All over the world, there are over 2,700 **TERMITE SPECIES**

Housefly gnaws **ALMOST ANYTHING** – the food you leave on your plate, carrion, fecal matter, spills, etc

Houseflies uses its sponging **MOUTHS TO LIQUEFY MEALS**, regurgitating the substance before ingesting it

Flies have morphology that lets them **CLIMB AND WALK** on any surface vertically, horizontally or upside down

Flies **LAY THEIR EGGS** in rotting carcasses, feces, garbage or other undesirable elements

Flies can **SEE** in nearly 360-degree surround

Houseflies has **NO TEETH**

Flies are one of the **FILTHIEST CREATURES** on the planet, carrying millions of disease-infested microorganisms over their lifespan

HOUSEFLY

HONEYBEES

Ants are the
LONGEST LIVING
insects

A single ant **CAN CARRY 50 TIMES** its own bodyweight, and they'll even work together to move bigger objects as a group

There are over 12,000
ANT SPECIES worldwide

Ants are social insects which
LIVES IN COLONIES

The bullet ant is said to have
the most **PAINFUL STING**
in the world

Ants are **FOUND** on every
continent but **ANTARCTICA**

Ants don't have **EARS**, and
some of them don't have **EYES**

Male honeybees,
called **DRONES**, **DONT HAVE STINGERS**

Crops depend on
honeybee pollination,
which makes the bees
worth **BILLIONS OF DOLLARS**

Honeybee colonies can hold
as many as **80,000 BEES**

Honeybees have a
SEPARATE STOMACH
just for honey

Honeybees are **NEAT FREAKS**.
It takes 15 to 30 worker
bees 40 minutes to
CLEAN EACH EGG CELL

Honeybees are **FOUND** on
every continent but
ANTARCTICA

TO AVOID BEING STUNG
by a honeybee buzzing
around you, it's best
to **STAND STILL**

Proposal for Pest Management Services

Mrs Bector Foods Specialties Ltd
Bande Nalla Sandra, Jigani, Karnataka 560105

Dear Mr. Pra

I hope this message and Quotation finds you well.

In response to your enquiry, our Hommlie Team has conducted an inspection of your premises to identify and assess the types of pests and the severity of the infestation. A summary of the inspection findings is attached for your reference. Based on our observations, we would like to make the following

Recommendations:

Observations:

- A) The pests identified include mosquitoes, cockroaches, drain flies, and rodents.
- B) The level of infestation observed is moderate.

Recommended Services:

1. Mosquito Management Service - MMS
2. Cockroach Management Service - CMS
3. Flies Management Service - FMS
4. Rodent Management Service - RMS
5. Lizard management Service - LMS
6. Pro Guard Management Service - PGMS

Further details of these services are provided in the enclosed annexure.

Charges for Pest Management Service

SI No	Client Name	Address	Service Frequency	Monthly Value
01	Mrs Bector Foods Specialities Ltd	Bande Nalla Sandra, Jigani, Karnataka 560105	Onsite - Daily 8 Hours	42,000/- + GST

Service Details for Pest Management Service

SI No	Recommended Services	Recommended Treatment	Recommended Frequency	Treatment Type
1	Cockroach Management Service	Yes	Weekly Once	Trapping, baiting, Spray
2	Rodent Management Service	Yes	Weekly Twice	Borrow Treatment, TRBS Baiting, Trapping, Repellent Spray

6	Pro-Guard Management Service	Yes	Fortnightly	Spray 6 Ft external wall spray

Terms and Conditions:

- Note: GST at 18% is applicable
- Terms of Payment: Monthly Credit - Service
- Terms of Payment: Full in advance - Product
- Validity: This quotation is valid for 15 days from the date of submission.

Contract Period:

- AMC/One-Time Services will be delivered by Hommlie's on-roll Hygiene Experts at as many locations as possible.
- Services will be provided as per the predetermined weekday-based schedules.
- Any request for rescheduling should be sent three days in advance.
- Services missed due to site rescheduling will be billed for, based on the blocked service capacity and the extra efforts required to resolve site issues.
- Services missed by Hommlie will be compensated.

Customer Responsibility:

- Customers are requested to close gaps identified in technical site audits and inspections within 30 days, wherever applicable.
- Failure to address these gaps may result in inefficacy issues and will require a revision of the service frequency.

Confirmation of Service:

- OTP (One-Time Password) will be used as the basis for service confirmation on job cards, instead of signatures and seals.
- The OTP will be collected from the person available on-site, and a copy will be sent to the site SPOC (Single Point of Contact).
- Any changes to the site SPOC should be communicated to the Hommlie team promptly to ensure smooth service delivery.

Complaints and Support:

- All complaints should be logged via email at reach@hommlie.com, with a site QR code installed at the site for easy access.

Hommlie Assurance:

- In case of pest resurgence under contract, interim calls, if any, will be attended to at no extra cost.
- Only chemicals labeled for use on a specific pest will be used.
- As outlined in the PMP (Pest Management Plan) attached, we emphasize prevention. Proofing measures may be suggested, which should be implemented by the customer.

Additional Notes:

- Rodent stations or any other equipment provided by Hommlie remain the property of Hommlie. Missing or damaged equipment will incur a replacement charge.
- Renewal or extension of the contract will include an increment.
- All invoices will be sent to the registered email addresses of the customers.
- Any increase in the serviceable area will be communicated to the customer, and the commercial terms will be revised accordingly.
- All requisite areas on the premises must be made available for Hommlie's scheduled service. Failure to do so will affect the site's efficiency, and any extra complaint visits will be billed accordingly.

We thank you once again for trusting us with the pest management needs at your premises. Should you have any further queries or require clarification on the above terms, please feel free to contact us.
